WELCOME TO 2008...
This Year the Macarthur/Wingecarribee Library Service has some exciting new projects...
* Macarthur Archives Project will begin to archive all historical photos of Campbelltown & Camden Hospitals.
* CIAP moves to the New OvidSP Platform from February 2008—Training will be included in our new updated training program

HOP INTO POGOFROG.COM
Pogofrog.com is a new development from Google it Jumps over the layman clutter on the internet to find Only credible medical information for Clinicians & Health care workers.

Using the same Google interface, the results list is concise listing only medical information—Well worth bookmarking

CIAP moves to OvidSP from 1st February 2008

The Ovid platform will look a little different but will still offer search access to: Medline, Embase, CINAHL, PsycINFO, Maternity & Infant Care, Journals@vid and Books@Ovid with new searching features.

Ovid Syntax replaces the old Advanced Searching.
Basic Search will be made easier by using free text/natural language searching, spell checking & results ranking
Auto Alerts & eTOC (Electronic table of contents) maybe set up
Personal Accounts will allow searches to be saved with your own login & password, only you can retrieve & edit your search.

If you would like to attend a FREE Ovid Database Training session OR an overall Introduction to CIAP see page 3 of this bulletin for the dates to book.
