WHAT’s ON THIS MONTH??

Have You Used BMJ Best Practice???

Healthcare professionals need fast and easy access to the latest relevant information when making diagnosis and treatment decisions. This is precisely what BMJ Best Practice provides.

In a single source we have combined the latest research evidence, guidelines and expert opinion – presented in a step-by-step approach and covering prevention, diagnosis, treatment and prognosis. BMJ Best Practice gives medical professionals the best available information for any clinical situation. Regularly updated, it draws on the latest evidence-based research to offer step-by-step guidance on diagnosis, prognosis, treatment and prevention. BMJ Best Practice is your instant second opinion.

Would you like an overview of the Key features on how BMJ Best Practice can help at the point of care? Follow the link for a Video Link to a Tour of this Resource
