Allied Health, Evidence Based

Books

USA: 2000.                  HV 699/3  C

Practice in Speech Pathology.
UK: 2004.                   WL 340.2/1  B
WL 340.2/15  C

Evidence-based Physiotherapies for Children and Adolescents.
USA: 2003.                  WS 350.2/1  B
WS 350.2/9  C

USA: 2008.                  QU 145/33  C

USA: 2008.                  WM 100/62  C

Practical Evidence-based Physiotherapy.
UK: 2005.                   WB 460/24  B

Practical Tips in finding the Evidence: an Allied Health Primer.
SA: 2009.                   WB 102.5/1  C

Refshauge: Musculoskeletal Physiotherapy: clinical science and evidence-based practice. 2nd ed.
USA: 2004.                  WE 140/10  C

Taylor: Evidence-based Practice for Occupational Therapists.
UK: 2000.                   WB 555/1  C

Journals

P Print or E Electronic

Journal of Allied Health
Association of Schools of Allied Health Professions.
P 2007+            Athens or CIAP

Resource Location: B - Bowral       C – Campbelltown

This publication lists ONLY a selection of print and electronic resources available from either the Macarthur Clinical Library - Campbelltown Hospital or the Michael Khoo Library - Bowral Hospital which may be borrowed from either Library location. Many other resources covering this topic will be available via the Library Catalogue.

Reference Books and Journals may NOT be borrowed; however photocopying services are available at both Library sites. Other resources may be borrowed for a two or three week loan period.

A Library Card is required to borrow - Not Registered? Go to the Library Website & complete the form, then fax to 4634 3940.

Macarthur Clinical Library
Campbelltown/Camden Hospitals
Phone: 4634-3944 | Fax: 4634-3940
Hours:
Monday - Thursday 8:30am – 4.45pm
Friday 8:00am – 4:30pm

Michael Khoo Library
Bowral Hospital
Phone: 4861-0214 |(Tues Thurs)
Email: MacarthurBowral.Library@sswhs.nsw.gov.au
Tuesday 9:00am – 2:00pm
Thursday 9:30am – 4:00pm
Closed Lunch Times 12.30pm - 1.00pm

June 2013

### E-JOURNALS AVAILABLE THROUGH CIAP OR 'ATHENS'

**CIAP** The Clinical Information Access Portal (CIAP) provides access to clinical information and resources to support evidence-based practice at the point of care. CIAP is available to all staff working in the NSW public health system. [http://www.ciap.health.nsw.gov.au/home.html](http://www.ciap.health.nsw.gov.au/home.html)

**Athens** is a platform which provides access to library e-journals through your own login and password from work or from home. To register for this service complete the Athens Registration Form on the Library Intranet website. [http://www.swslhd.nsw.gov.au/ccq/library/default.html](http://www.swslhd.nsw.gov.au/ccq/library/default.html)

For enquiries or questions please ring: 4634-3941.

</tbody>
</table>
## E-JOURNALS AVAILABLE THROUGH PROQUEST

Proquest provides access to over 2,000 titles through the Health & Medical link, 850 titles through the Health Management link and 800 titles via the Psychology Journals link through the Athens Portal. Most ProQuest e-Journal titles are full-text and not on CIAP. To access Proquest e-journals an Athens Login and Password is required. Complete an Athens Registration Form from the Library website: [http://www.swslhd.nsw.gov.au/ccq/library/default.html](http://www.swslhd.nsw.gov.au/ccq/library/default.html)

### DATABASES

#### Allied Health Evidence

This database is a search tool that allows you to locate research across 4 databases at once: PEDro, OTseeker, SpeechBITE and PsycBITE. Available via CIAP: [http://www.ciap.health.nsw.gov.au/home.html](http://www.ciap.health.nsw.gov.au/home.html) (From the CIAP Homepage select the Evidence Based Practice link).

#### All OVID EBM Reviews

#### BestBETs

BETs were developed to provide rapid evidence-based answers to real-life clinical questions, using a systematic approach to reviewing the literature. [http://www.bestbets.org/](http://www.bestbets.org/)

#### Best Practice (BMJ)

#### BMJ Clinical Evidence

**Cochrane Library**
The Cochrane Library is a updated collection of evidence-based medicine databases, including The Cochrane Database of Systematic Reviews. [www.cochrane.org.au](http://www.cochrane.org.au)

**DynaMed**
DynaMed is a clinical reference tool created for physicians and other health care professionals for use at the point-of-care. Updated daily from over 500 journals, and with clinically-organized summaries for more than 3,200 topics, DynaMed provides the latest content and a synthesis of the best available evidence.

**Joanna Briggs Institute**
Evidence Summaries | Systematic Reviews | Best Practice Recommendations

**Medline** (Available via CIAP – Databases link)
The Ovid MEDLINE database contains citations and author abstracts from more than 4,600 journals in the medical sciences, published in the United States and in 70 other countries. Produced by the National Library of Medicine, it contains over 19 million citations.

**NICE Evidence Search**
Clinical Knowledge Summaries | Evidence Search

**PubMed**
PubMed, a free service of the National Library of Medicine (U.S.), provides access to over 19 million MEDLINE citations back to the mid-1960s plus additional life science journals. PubMed includes links to many sites providing full text articles and other related resources.  [http://www.ncbi.nlm.nih.gov/pubmed/advanced](http://www.ncbi.nlm.nih.gov/pubmed/advanced)

---

**Online Tutorials**

**EBM Tutorial: Finding the best available clinical evidence from Sydney University**

**Introduction to Evidence-Based Medicine from Duke University**
[http://www.hsl.unc.edu/services/tutorials/ebm/index.htm](http://www.hsl.unc.edu/services/tutorials/ebm/index.htm)

**Find It Fast #1: Introduction**
[http://library.medicine.yale.edu/guides/screencasts/finditfast/finditfast_1/](http://library.medicine.yale.edu/guides/screencasts/finditfast/finditfast_1/)
Find It Fast #1: Introduction: This is the first episode of the evidence-based practice information resources video tutorial series from Cushing/Whitney Medical Library at Yale University. The basic steps for finding clinical information, especially how to construct a focused, answerable clinical question, are reviewed

**Find It Fast #2: The Clinical Question**
[http://library.medicine.yale.edu/guides/screencasts/finditfast/finditfast_2/](http://library.medicine.yale.edu/guides/screencasts/finditfast/finditfast_2/)
Find It Fast #2: The Clinical Question
Your choice of clinical information resource is closely related to the nature of the clinical question you ask. This tutorial covers various types of clinical questions and how they are associated with different types of research studies.

**Find It Fast #3: The Pyramid of Resources**
[http://library.medicine.yale.edu/guides/screencasts/finditfast/finditfast_3/](http://library.medicine.yale.edu/guides/screencasts/finditfast/finditfast_3/)
Clinical information resources are usually classified by the extent to which they are critically appraised. We often use a pyramid diagram to distinguish two different tiers of resources. This tutorial explains the differences of the two tiers and shows how various clinical resources fit into the pyramid model.
