You could help make someone’s dream a reality. Volunteer Driver Mentors Wanted

Getting a driver licence opens up many opportunities for young people to become more independent and gain greater access to the workforce and further education. It can also help connect young people with their friends and family, and minimise their risk of feeling isolated.

However, for some young carers this is difficult to achieve. In NSW a person under 25 years old has to complete 120 hours of supervised driving to enable them get their P1 Licence. This is a real barrier as many young carers may not have access to a car or an adult in their life who can provide the required supervision.

Do you want to be a volunteer driving mentor? Then join the YC Drive Program today!

- Are you over 25 years of age?
- Are you keen to help a young person gain their licence?
- Have you held an unrestricted NSW Driver Licence for the past two years?
- Do you have one-two hours to spare each week?

YC Drive would love to hear from you! Training, support and car provided.

For more information about how to join the YC Drive Program contact us on 1800 242 636.
