

Pre-2006 LBIRU Publications
(listed by category)

Research has originated from the Brain Injury Rehabilitation Unit since 1987 and has covered the following subjects.

Behaviour Issues/Personality change	Physiotherapy
Case Management	Post-Traumatic Amnesia
Cognitive Processes	Psychosocial recovery and outcomes
Communication/Social Skills	Rehabilitation intervention
Cultural Differences	Sexuality
Family	Social Work
Health Services	Substance Abuse
Nursing	Suicide
Outcome Measures	Policy Submissions/Reports

Citations listed below are categorised and include peer-reviewed journal articles, book chapters, abstracts and conference proceedings.

Behaviour Issues/ Personality Change

Manchester, D., Hodgkinson, A., and Casey, T. (1997). Prolonged, severe behavioural disturbance following TBI: What can be done? *Brain Injury* 11, 605-617.

Manchester, D., Hodgkinson, A., Pfaff, A., and Nguyen, G. (1997). A nonaversive approach to reducing hospital absconding in a head-injured adolescent boy. *Brain Injury* 11, 217-277.

Simpson, G.K., Blaszczyński, A., and Hodgkinson, A. (1999). Sexual offending as a psychosocial sequela of traumatic brain injury. *Journal of Head Trauma Rehabilitation* 14(6), 1-16.

Simpson, G.K., Tate, R.L., Ferry, K., Hodgkinson, A., and Blaszczyński, A. (2001). Social, neuroradiological, medical and neuropsychological correlates of sexually aberrant behaviour after traumatic brain injury: A controlled study. *Journal of Head Trauma Rehabilitation* 16(6), 556-572.

Tate, R.L. (1987). Behaviour management techniques for organic psychosocial deficit incurred by severe head injury. *Scandinavian Journal of Rehabilitation Medicine* 19, 19-24.

Tate, R.L. (1987). Issues in the management of behaviour disturbance as a consequence of severe head injury. *Scandinavian Journal of Rehabilitation Medicine* 19, 13-18.

Tate, R.L. (2003). Impact of pre-injury factors on outcome after severe traumatic brain injury: Does post-traumatic personality change represent an exacerbation of premorbid traits? *Neuropsychological Rehabilitation* 13(1-2), 43-64.

Todd, J., Loewy, J., Kelly, G., and Simpson, G.K. (2004). Managing challenging behaviours after acquired brain injury: How to put in place interventions that work. *Brain Impairment* 5, 42-52.

Case Management

Simpson, G.K. & Osoteo T. (2006). Effective case management. In: Introduction to traumatic brain injury: a training kit. <http://www.tbistafftraining.info>

Cognitive Processes

Kinch, J. & McDonald, S. (2001). Traumatic brain injury and prospective memory: An examination of the influences of executive function and retrospective memory. *Brain Impairment* 2, 119-130.

McDonald, S. & Pearce, S. (1998). Requests that overcome listener reluctance: Impairment associated with executive dysfunction in brain injury. *Brain and Language* 61, 88-104.

McDonald, S. (1996) Hypothesis testing in neuropsychology in context: Another response to the neuropsychology debate. *Australian Psychologist* 31, 73-75.

McDonald, S. (2000). Neuropsychological studies of sarcasm. *Metaphor and Symbol* 15, 85-98.

Palmer, H.M. & McDonald, S. (2000). The role of frontal and temporal lobe processes in prospective remembering. *Brain and Cognition* 44, 103-107.

Tate, R.L. & Perdices, M. (2001). Measuring flexibility in patients with frontal lesions. *Brain and Cognition* 47, 358-362.
