

Course Code: CSK12381
Course Name: Expand your Respiratory Skills: Module 2
Venue: Ngara Education Centre, Eastern Campus, Liverpool Hospital
Date: 8 June 2017
Start Time: 8:00am
End Time: 16:30pm
Facilitator: Azmeen Azeem (Nurse Educator Chronic disease)
Learning Mode: Face to face

Aim:

The course aims to increase confidence in the application of clinical respiratory care, including assessment, in patient management, allied health and transfer of care into the community.

Participants will be able to partner with all parties responsible for the planning, delivery and evaluation of health care to achieve mutually beneficial outcomes

Objectives/Outcomes:

This course will allow participants to:

- Improve the management of the breathless patient in the ward environment
- Increase awareness of palliative care in respiratory conditions
- Increase confidence in discussing & promoting smoking cessation
- Extend knowledge and practical skills pertaining to BiPAP
- Extend knowledge and practical skills pertaining to Chest drains
- Identify the role of allied health and support staff in caring for people with respiratory conditions
- Discuss transfer of care for the patient with a respiratory condition, promoting the concept of Criteria led Discharge

Target Group: Clinical staff working in respiratory areas. This includes nurses and allied health staff.
