Audience & Access

This document is a guideline for staff who have My Health Learning Local Reporting Role access. The Local Reporting Role (LRR) enables staff to run reports for their facility/service to monitor mandatory training compliance and completions in both classroom and online courses.

If you no longer require access to this role, please notify SWSCEWD to remove your access.

Key Reports

Mandatory training compliance/gap reports

1. 050 - Mandatory Training Report

- This report provides you with a detailed list of staff who are **compliant & non-compliant** in all mandatory training courses
- This report can be run for the entire facility/service or professional user groups within the facility/service
- Professional groups are created following the Mandatory Training Policy & Matrix guidelines. The user groups are Nursing & Midwifery, Medical & Dental, Allied Health and Corporate.

2. 050.1 - Organisation Mandatory Training Matrix

- This report provides you with a **summary % of compliance** in all mandatory training courses
- This report can only be run for the entire facility/service
- This report allows you to remove staff who are on extended leave from the data extract.

(The extended leave indicator is calculated in My Health Learning based on the 'last date of pay' information imported from Stafflink. Any employee record that exceeds 90 days from the last pay date gets an 'on extended leave' indicator in My Health Learning. This could include casual pool staff not working with the facility/service, maternity leave, long service leave, extended sick leave, etc. The extended leave indicator is turned off as soon as the staff returns to work and crosses the first pay cycle within their nursing/non-nursing pay cycle; which enables their updated pay date to be imported in My Health Learning.

3. 050.2 - Mandatory Training Summary Report

- This report provides you with a detailed list of staff who are **compliant** in all mandatory training courses
- This report can be run for the entire facility/service or professional user groups within the facility/service
- Professional groups are created following the Mandatory Training Policy & Matrix guidelines. The user groups are Nursing & Midwifery, Medical & Dental, Allied Health and Corporate.

Reports for general courses (online & classroom)

1. 002 - Classroom Enrolments and Current Status

- This report allows you to run reports on any **classroom course** that is offered by SWSCEWD or by a single class (offering) within a course
- This report can be run for the entire facility/service or professional user groups within the facility/service
- Professional groups are created following the Mandatory Training Policy & Matrix guidelines. The user groups are Nursing & Midwifery, Medical & Dental, Allied Health and Corporate.

2. 003 - Online and Certification Offering Enrolments Status

- This report allows you to run reports on any **online course** that is offered by **HETI or SWSCEWD** and may/may not be part of the mandatory training requirement
- This report allows you to run reports on any online course that has recurrence (certification) requirement. For example, Fire Safety and Evacuation (online) which has an annual recurrence (certification) requirement
- This report can be run for the entire facility/service or professional user groups within the facility/service
- Professional groups are created following the Mandatory Training Policy & Matrix guidelines. The user groups are Nursing & Midwifery, Medical & Dental, Allied Health and Corporate.

3. 005 – Learning Path Status Details

- This report allows you to run **reports on any pathway** such as the Financial Management Essentials pathway or Medical Officers Orientation pathway etc.
- This report can be run for the entire facility/service

Top level steps for Running Reports

- 1. Change your role to Local Reporting Role
- 2. Search for a relevant report
- 3. Click on Run >> Schedule Reports
- 4. Enter relevant parameter criteria in each tab
- 5. Schedule the report
- 6. Data will be emailed to your mailbox

Changing Roles

In addition to the Local Reporting Role you may have one or all of the following roles in My Health Learning: Learner, Manager, Manager Delegate, Instructor or Scheduler. These roles have a defined hierarchy in My Health Learning. Every time you log on to My Health Learning, the system will open with your most senior role within the system. To ensure accurate reports are generated, ensure you change to the Local Reporting Role prior to running any reports.

Hover over your primary role to bring up all roles you have access to. Click on the Local Reporting Role to change your level of access.

Running Reports

Click on the **Reporting tab** >> Click on **My Reports** to bring up all reports you have access to.
