Funding and Training Opportunities

Research Grants, Scholarships, Awards, Conferences and Training Sessions

Prepared by the Development Support Unit,
[SWSLHD Research Directorate](#)

IMPORTANT INFORMATION

Please note, any applications requiring a letter of support and/or Chief Executive sign-off must go through the appropriate approval process and will require a minimum lead time of 2 weeks.

Please discuss any potential letters of support or applications requiring signature with Rachel Goldrick on 02 8738 8315 or at SWSLHD-ResearchDirectorate@health.nsw.gov.au

Up-to-date information on approvals is available on the Research Directorate website under "Grants" → <https://www.swslhd.health.nsw.gov.au/ethics/grants.html>

Please see the Research Directorate website for information relating to the Grant Application Process:
<https://www.swslhd.health.nsw.gov.au/Ethics/content/pdf/Grant%20Application%20Decision%20Tool.pdf>

Closing Date	Name	Details	Website	Restrictions	Last Updated
Nov-24					
27-Nov-24	NHMRC Partnership Project - National Health and Research Council	The objectives of the Partnership Project scheme is to meet the need for more effective integration of research evidence into health policy and service delivery and create partnerships among policy makers, managers, service providers and researchers. To also provide support to answer often complex and difficult questions that policy makers managers ad service providers face when making decisions and implementing policies that affect Australians health and health care.	https://www.grants.gov.au/Go/Show?GoUId=8339df5e-829b-40aa-bb79-77d26e4aec95	See eligibility criteria	22-Jan-24
30-Nov-24	McCusker Charitable Foundation Grants	The McCusker Charitable Foundation's primary focus is medical research and the advancement of science. The Directors will consider applications for assistance for care, promotion of high achievement, support for the aged, development of the arts, agricultural research and projects that encourage greater philanthropy, volunteering and giving in Australia	https://granthelper.com.au/government-grant-news/mccusker-charitable-foundation-grants/		04-Mar-24
Dec-24					
01-Dec-24	MRFF 2024 Research Data Infrastructure	This grant opportunity will provide \$10 million to support Australian medical research and innovation projects that use multiple types of existing research data infrastructure in new ways, and use these in areas of existing or emerging unmet health need.	https://www.grants.gov.au/Fo/Show?FoUId=b0936589-7dc6-4daf-8f52-56c126b9af9d	Applications open 15/07/2024	27-May-24
04-Dec-24	Round 2 - 2024 International Clinical Trial Collaborations	The objective of this grant opportunity is to provide grants of financial assistance to support medical research and medical innovation projects that promote Australian involvement in international collaborative investigator-initiated clinical trials research through the establishment and co-ordination of clinical trial site/s in Australia. Provide high-quality evidence of the effectiveness of novel health treatments, drugs or devices in 'usual care' settings, which will support a decision on whether to deliver the intervention in an Australian setting.	https://www.grants.gov.au/Go/Show?GoUId=f69da272-a9b2-4d42-ad04-70ffcdaca78b	Applications will only be accepted from NHMRC approved Eligible Organisations	27-Jun-24
04-Dec-24	NHMRC Centres of Research Excellence 2025	The objective of the CRE scheme is to improve health outcomes and promote or improve translation of research outcomes into policy and/or practice. The CRE scheme will also support researchers in capacity building activities, including in specific areas of need identified by NHMRC.	https://www.nhmrc.gov.au/funding/find-funding/centres-research-excellence?utm_medium=email&utm_campaign=Tracker%20-%2021%20October%202024&utm_content=Tracker%20-		28-Oct-24
06-Dec-24	NSW Cardiovascular Research Capacity Program Collaborative Grants	The 2024 round of the Cardiovascular Collaborative Grants are now open. The two-year grant is targeted at NSW-led collaborations involving multiple institutions to achieve success with national funding opportunities. A total of up to \$750,00 may be awarded per grant. A briefing for applicants will be held online on Friday 27 September from 12pm – 1pm. Please email MOH-OHMRGrants@health.nsw.gov.au to register your interest.	https://www.medicalresearch.nsw.gov.au/cardiovascular/		18-Sep-24
11-Dec-24	MRFF – EPCDRI – 2024 Improving Health Outcomes of People with Intellectual Disability Grant Opportunity	The objective of this grant opportunity is to provide grants of financial assistance to support medical research and medical innovation projects that: Stream 1 (Targeted Call for Research): conduct large-scale, multidisciplinary projects, in partnership with the health and disability sector and people with lived experience, to develop, optimise and/or evaluate person-centred approaches for preventive health care for people with intellectual disability.	Current Grant Opportunity View - GO7217: GrantConnect	Minimum Data closes at 5:00pm (ACT Local Time) on 11 December 2024	27-Nov-24
12-Dec-24	2024 NHMRC-CIHR Canadian Consortium on Neurodegeneration in Aging (CCNA): Indigenous Health Research	The NHMRC is providing \$3 million to support Australian researchers participating in the joint NHMRC-Canadian Institutes of Health Research (CIHR) 2024 Grant Opportunity. This Grant Opportunity runs through CIHR's Canadian Consortium on Neurodegeneration in Aging (CCNA) and will fund Canada-Australia joint research teams addressing any of the recognised forms of dementia in Indigenous populations.	https://ccna-ccnv.ca/		28-Oct-24
13-Dec-24	Aboriginal Heart Health Grants	Stream 1: Maximum grant of \$750,000 to conduct a multidisciplinary project, which has undertaken a consultation process with Aboriginal communities to identify a need/priority and solution/ innovation/strategy to be tested in the cardiovascular space. Stream 2: Maximum grant of \$250,000 for early-stage developmental/exploratory research project, where a consultation process is required with Aboriginal communities to determine an identified priority/need, better understand its causes, and suggest solution(s)/innovation(s)/strategy(ies) to address the need in the cardiovascular space.	NSW Health & Medical Research Aboriginal Heart Health Grants		16-Oct-24
16-Dec-24	Aboriginal postgraduate nursing and midwifery scholarships	If you're an Aboriginal person currently working as a registered nurse or registered midwife employed in a NSW Health facility, a postgraduate scholarship of up to \$10,000 is available to support your postgraduate study and help with educational expenses. Postgraduate study is a chance to expand your knowledge and provide career development opportunities that will support cultural safety within NSW Health impacting the health of Mob.	https://www.health.nsw.gov.au/nursing/scholarship/Pages/Aboriginal-Postgraduate-Scholarships.aspx		07-Aug-24
Feb-25					

05-Feb-25	Round 2 Applications - MRFF - 2024 International Clinical Trial Collaborations Grant Opportunity	<p>The Clinical Trials Activity Initiative (the Initiative) aims to:</p> <ul style="list-style-type: none"> - Improve the evidence base supporting clinical care - Help patients access trials relevant to their health circumstances - Enable researchers to bring international trials to Australian patients <p>The objective of this grant opportunity is to provide grants of financial assistance to support medical research and medical innovation projects that:</p> <ul style="list-style-type: none"> - promote Australian involvement in international collaborative investigator-initiated clinical trials research through the establishment and co-ordination of clinical trial site/s in Australia. - provide high-quality evidence of the effectiveness of novel health treatments, drugs or devices in 'usual care' settings, which will support a decision on whether to deliver the intervention in an Australian setting. 	https://www.grants.gov.au/Go/Show?GoUId=f69da272-a9b2-4d42-ad04-70ffcdaca78b	NHMRC Administering Institution Only	18-Mar-24
05-Feb-25	MRFF – Australian Brain Cancer Mission – 2024 Brain Cancer Discovery and Translation Grant Opportunity	<p>The Medical Research Future Fund (MRFF) – 2024 Brain Cancer Discovery and Translation Grant Opportunity will support medical research and medical innovation projects that conduct innovative, interdisciplinary, collaborative and translational preclinical brain cancer research that advances knowledge in at least one of these areas:</p> <p>Aetiology of brain cancer Identification and validation of new therapeutic strategies for brain cancer, and/or Development of new therapies for brain cancer.</p>	MRFF – 2024 Brain Cancer Discovery and Translation Grant Opportunity (GO7224) NHMRC		28-Oct-24
05-Feb-25	MRFF – Genomics Health Futures Mission – 2024 Genomics Health Futures Grant Opportunity	<p>The Medical Research Future Fund (MRFF) – 2024 Genomics Health Futures Grant Opportunity will provide grants of financial assistance to support medical research and medical innovation projects that:</p> <p>Stream 1 (Targeted Call for Research): develop and/or implement novel genomic methods to improve diagnosis, therapeutic intervention, and/or surveillance of new, emerging, and/or re-emerging infectious diseases.</p> <p>Funding under Stream 1 is available as follows: Topic A: Microbial surveillance Topic B: Antimicrobial resistance Topic C: Infectious diseases.</p> <p>Stream 2 (Targeted Call for Research): develop and/or implement pharmacogenomic approaches to reduce medication harm and adverse side effects.</p>	MRFF – 2024 Genomics Health Futures Grant Opportunity (GO7221) NHMRC	NHMRC Administering Institution Only	13-Nov-24
12-Feb-25	Cancer Australia – 2024 Improving First Nations Cancer Outcomes: Partnerships for Cancer Research Grant Opportunity	<p>Cancer Australia – 2024 Improving First Nations Cancer Outcomes: Partnerships for Cancer Research Grant Opportunity will support research to:</p> <ul style="list-style-type: none"> strengthen cancer research to improve Aboriginal and Torres Strait Islander Health build the capacity of the Aboriginal and Torres Strait Islander research sector now and into the future, including through mentorship and leadership opportunities... 	Cancer Australia – 2024 Improving First Nations Cancer Outcomes: Partnerships for Cancer Research Grant Opportunity (GO7216) NHMRC		28-Oct-24
Mar-25					
26-Mar-25	MRFF – EPCDRI – 2024 Integrated Multidisciplinary Models of Primary Care Grant Opportunity	<p>The Medical Research Future Fund (MRFF) - Emerging Priorities and Consumer Driven Research Initiative (EPCDRI) - 2024 Integrated Multidisciplinary Models of Primary Care Grant Opportunity will support medical research and medical innovation projects that evaluate the effectiveness and feasibility of new or existing models of integrated, multidisciplinary team-based primary care for people who would most benefit from this type of care, including but not limited to First Nations Australians, people from culturally and linguistically diverse backgrounds, people with disability including intellectual, children, older populations (either in residential aged care homes or those ageing at home), or those with social disadvantage or multiple chronic conditions.</p>	https://www.grants.gov.au/Go/Show?GoUId=2b23688c-8d28-4e1b-9292-9cc03ff0dcd6	NHMRC Administering Institution Only	18-Sep-24
31-Mar-25	MRFF 2024 National Critical Research Infrastructure Grant Opportunity	<p>Guidelines for the 2024 National Critical Research Infrastructure grant opportunity are now available. This grant opportunity will provide \$76 million for research infrastructure that ensures Australian researchers find innovative solutions to complex health problems in areas of unmet medical need.</p>	https://www.grants.gov.au/Go/Show?FoUId=018c3969-ac92-48d4-9f9b-36a087da95f2	NHMRC Administering Institution Only	04-Sep
Apr-25					
02-Apr-25	MRFF 2024 Clinical Trials Activity Grant Opportunity	<p>The objective of this grant opportunity is to provide grants of financial assistance to support medical research and medical innovation projects that:</p> <p>Stream 1 (Targeted Call for Research): conduct a pilot study to assess the feasibility of a new clinical trial for one or more treatments and/or management strategies for a rare cancer, rare disease and/or unmet need.</p> <p>Stream 2 (Targeted Call for Research): conduct a clinical trial of one or more treatments and/or management-based interventions for rare cancers, rare diseases and/or unmet need.</p> <p>Stream 3 (Targeted Call for Research): conduct a clinical trial that assesses the comparative effectiveness of two or more health interventions to treat a specific clinical condition, to inform the decisions of policy makers, clinicians, and consumers regarding healthcare and to minimise the use of unnecessary, ineffective, and harmful health interventions.</p> <p>Stream 4 (Targeted Call for Research): conduct an implementation science trial to determine the best ways to implement a proven preventive health intervention, screening or diagnostic test, therapeutic agent, technology or model of care that is not in routine use in Australia.</p>	https://www.grants.gov.au/Go/Show?GoUId=f7bf53fd-87ec-407e-8a44-e505839b0b06	NHMRC Administering Institution Only	18-Sep-24
02-Apr-25	MRFF – PPHRI – 2024 Chronic Respiratory Conditions Grant Opportunity	<p>The Medical Research Future Fund (MRFF) Preventive and Public Health Research Initiative aims to enable or support research into new ways to address preventive and public health issues in Australia.</p>	Current Grant Opportunity View - GO7294: GrantConnect	Minimum Data closes at 5:00pm (ACT Local Time) on 02 April 2025.	27-Nov-25

16-Apr-25	MRRF – Emerging Priorities and Consumer Driven Research Initiative – 2024 Post-Acute Sequelae of COVID-19 Grant Opportunity	The Medical Research Future Fund (MRRF) – 2024 Post-Acute Sequelae of COVID-19 Grant Opportunity will support research medical research and medical innovation projects that: Stream 1 (Aim 2 of Research Plan; Incubator): conduct small scale developmental projects that: Topic A: investigate the molecular mechanisms, pathways or biomarkers that are central to the cause and progression of PASC. Topic B: build knowledge of key factors that impact PASC prognosis, including but not limited to psychosocial, physical and behavioural contributors...	MRRF – 2024 Post-Acute Sequelae of COVID-19 Grant Opportunity (GO7225) NHMRC	NHMRC Administering Institution Only	13-Nov-24
30-Apr-25	MRRF - EPCDRI - 2023 Post-Acute Sequelae of COVID-19 Grant Opportunity (Stream 4 Stage 2)	This is for Stream 4 Stage 2 applicants only. The objective of this grant opportunity is to: Stream 4: Stage 2 (Targeted Call for Research): establish a multidisciplinary national adaptive platform trial that accelerates assessment and implementation of therapeutic interventions (pharmacological and non-pharmacological) for PASC. This grant opportunity is being administered by NHMRC on behalf of the Australian Government Department of Health and Aged Care.	https://www.grants.gov.au/Go/Show?GoUId=9d495c0c-a3f9-4c05-9656-c4a4e7289d2f	MRRF Administering Institution Only	08-Jan-24
BEYOND					
31-Mar-26	MRRF Frontier Health and Medical Research Grant Opportunity	This grant opportunity offers funding to support medical research and medical innovation programs of research that deliver a 'moonshot' by creating a treatment for a currently serious and incurable health condition, through a series of linked projects. The program of research can propose to develop novel health technologies and/or re purpose existing health technologies in a novel way.	https://business.gov.au/grants-and-programs/mrrf-2022-frontier-health-and-medical-research	NHMRC Administering Institution Only	16-Oct-23
Q2 2026	MRRF and NHMRC – CTA Initiative – 2025 Aus-UK Platform Studies in Areas of Unmet Clinical Need Grant Opportunity	The objective of this grant opportunity is to support new, adaptive platform trials (Phase 2 or 3) in areas of unmet clinical need. The platform must be internationally collaborative, with joint project leads based in Australia (for the Australian-based component of the trial) and the UK (for the UK-based component of the trial).	https://www.grants.gov.au/Fo/Show?FoUId=2fc28af7-3e17-4a18-a1db-669cfb2b409a		28-Oct-24
OPEN					
Open	RANZCP Sved Williams Scholarship for Aboriginal and Torres Strait Islander Perinatal and Infant Mental Health	This scholarship is established to contribute to achieving better outcomes for Aboriginal and Torres Strait Islander parents and their children in the first 1000 days of their children's lives; and to expand current knowledge and build capacity in Aboriginal and Torres Strait Islander perinatal and infant psychiatry.	https://www.ranzcp.org/grants-awards-giving/grants/research-grants/sved-williams-scholarship	RANZCP Fellows and Associates (trainees) who identify as Aboriginal and/or Torres Strait Islander.	13-Jun-23
Open	Australian College of Nursing Scholarships	ACN is dedicated to helping you be the best you can be by providing access to scholarships, grants and awards. We are proud to administer a range of Australian Government Department of Health and Aged Care scholarships for undergraduate and postgraduate aged care, nursing and midwifery courses as well as scholarships for Aboriginal and Torres Strait Islander students studying entry-level health courses. Scroll down to find out more! We also offer grants and awards to support nurses to complete continuing professional development as well as postgraduate study and research. You can read more about these exciting opportunities at the bottom of this page.	https://www.acn.edu.au/scholarships#agedcare-allied-health		05-Sep-23
Open - Annual	HETI Scholarships and Grants	Scholarships and grants offered by HETI aim to provide equal access to education in areas of need	https://www.heti.nsw.gov.au/Placements-Scholarships-Grants/scholarships-and-grants		27-Nov-23

Date of Event	Name	Details	Registration	Last Updated
Nov-24				
26-28 Nov-24	Research with Purpose 2024 - National Foundation for Medical Research and Innovation (NFMRI) (paid event)	NFMRI is pleased to be holding its sixth conference Research with Purpose 2024 at Tangalooma Island (Qld) from the 26-28th November 2024. This unique event is built around Q&A panel sessions that engage highly with participants and are led by content experts. The event focuses on building a culture, support and funding ecosystem where industry, government, academia, venture capital and philanthropy intersect to better support biomedical innovations from beginning to end.	https://www.eventbrite.com.au/e/nfmri-medical-research-innovation-conference-research-with-purpose-2024-tickets-676357141417?aff=oddtcreator&mc_cid=295e7c8f56 https://www.surveymonkey.com/r/XLTYFBK	07-Aug-24
28-29 Nov 24	ANZUP's 2024 Bladder and Prostate Masterclass	On 28 & 29 November ANZUP will be holding a Bladder and Prostate Masterclass in Sydney. This 1½ day workshop (commencing at midday on Thursday 28 and concluding at 5.30pm on Friday 29 November) is designed to help trainees develop their clinical trial ideas in Bladder and Prostate cancer.		16-Oct-24
27-29 Nov-24	5th National HREC Conference - Health Translation Queensland	Join us for the 5th National HREC Conference, showcasing ethics expertise from across Australia. This conference provides an online forum for sharing and discussing knowledge of and insights into current human research ethics related topics in the National Statement. Mark your calendars for 3 full days of insightful discussions on 27, 28 and 29 November 2024.	https://comms.healthtranslationqld.org.au/ch/59674/1t62j/2218635/nWvx1MxkZZvzHaYy_PWBxODEzqxVl62zvYpOcxD.html	12-Jun-24
27-Nov-24	2024 AAMRI Convention	SAVE THE DATE - Dinner in The Great Hall, Parliament House on the 27 November 2024.	To be announced.	11-Dec-23
28-Nov-24	Top 10 Tips for NHMRC Grant Success - Common Pitfalls and How to Avoid Them	Join this insightful webinar presented by Dr Tamika Heiden from the Research Impact Academy. This webinar will cover the top 10 learnings that Tamika has witnessed in supporting thousands of NHMRC grants. The session will focus on essential tips for crafting a competitive application, with an emphasis on strategies you can use to avoid common mistakes and improve your chances of success.	Top 10 Tips for NHMRC Grant Success Research Australia on Glue Up	28-Nov-24
30-Nov-24	Global Conference on Migration and Health Equity	30 - 31 January 2025 PSQ1 Abstracts are being accepted on a rolling basis up until 25 November 2024. We welcome abstracts from anyone with an interest in migration and health equity including academics, higher degree research students, professionals, policy makers, practitioners, Think Tanks, community associations, and consumers. Presented data will inform better ways to bridge migration-related health divides and provide novel insights. Early Bird registrations close 30 November	Call for Abstracts - Global Conference on Migration and Health Equity	13-Nov-24
Dec-24				
2-4 Dec 2024	ACTA 2024 Clinical Trials and Registries Symposium	The ACTA 2024 Clinical Trials and Registries Symposium will be held from the 2-4 December at the Pullman Melbourne Albert Park Hotel. It is the annual event for those involved in advancing the development of a self-improving healthcare system through the design and conduct of clinical trials, registries, clinical data, healthcare funding, policy and regulation, healthcare service delivery, health information technology and patient advocacy.	https://acta2024.com.au/	16-Oct-24
9-11 Dec-24	17th International Conference on Sensing Technology	The conference will provide a forum for researchers, scientists, engineers and practitioners from around the world to present their latest research findings, developments and applications in the area of sensing technology.	https://icst.in/icst2024/#sec5	12-Jun-24
19-Dec-24	Ageing and Aged Care Showcase	19 November 2024 12:00-2:00pm The School of Nursing and Midwifery Ageing and Aged Care Theme invites you to attend its annual event. The theme for this year is: Current Trends and Future Directions to Support Ageing. Guest speakers include: Prof Sally Chan, Prof Lorna Suen & Prof Rick Kwan	https://cdn-au.mailssnd.com/47157/UhFK40IWFbXjZcafiNBFJzM4itt6Rlj39uNsxlwero/1730863313/3057665.pdf	13-112024
Jan-25				
30-31 Jan 2025	Global Conference on Migration and Health Equity	Western Sydney University and the conference organising committee invite submissions of abstracts for presentation at the second Global Conference on Migration and Health Equity. We welcome abstracts from anyone with an interest in migration and health equity including academics, higher degree research students, professionals, policy makers, practitioners, Think Tanks, community associations, and consumers. Presented data will inform better ways to bridge migration-related health divides and provide novel insights and usable knowledge in five themes:	https://gmhe.org.au/call-for-abstracts/	28-Oct-24
Ongoing Seminars				
Ongoing Program	Longitudinal modelling for population health researchers	This short course aims to develop comprehensive knowledge of application of commonly used statistical models for longitudinal data analysis such as multilevel and generalized estimating equation (GEE) models in context of various study designs for population health research problems. In addition, it will cover longitudinal models for interrupted time series and ecological momentary analysis such as segmented regression and random location-scale model. Note that there's a fee for this short course which is 237 aud per module for up to four modules. Students can do two minimum and three or all four. It's an advanced course. High quality is guaranteed. Western alumnus or students gets a discount of 50%.	Please contact Dr Haidar if interested H.Mannan@westernsydney.edu.au	04-Oct-23

Ongoing Program	Stanford Quality Improvement Program 2023	The SPHERE Palliative Care Clinical Academic Group (CAG) will again be running the Stanford Quality Improvement Program in 2023. Applications are now open for teams who wish to participate in this round; please see attached application form. We encourage teams to get in touch if intending to apply to ensure their proposed project is suitable. Teams must be led by an individual employed by a SPHERE health service partner, all members must be able to attend all activities, and approval must be given by their respective service director. Please contact Kirsten Jakobsen (k.jakobsen@unsw.edu.au) you have any questions about this year's program, and please forward to anyone who may be interested in participating.	k.jakobsen@unsw.edu.au	24-May-23
Ongoing Program	Continuing Professional Development (CPD)	Continuing professional development (CPD) is central to lifelong learning and constitutes a vital aspect for keeping healthcare professionals' knowledge and skills up to date. At ACN we are dedicated to helping you meet your CPD requirements and ongoing education needs. Our CPD centre offers you an extensive range of tailored evidence-based products to suite your lifestyle, workplace, and education needs. Choose from a variety of study modes including online, face-to-face and webinars with new products being added regularly.	https://members.acn.edu.au/Public/cpd-centre/cpd-search.aspx?CPDCentreTabs=3&utm_source=Monthly%20CPD%20Email&utm_medium=ACN%20Website&utm_term=NSW%20Face%20to%20Face%20CPD#CPDCentreTabs	10-Jul-23
Ongoing Program	Youth Mentorship Program	The involvement of young people as partners in health research is critical. This is to ensure that research design, translation and service delivery are accessible and meaningful to young people. Despite this, consumer involvement particularly amongst children and adolescents, continues to be uncommon. Involving children and young people in health research has the potential to enhance the quality and relevance of research conducted, and also the experiences of health consumers involved in co-creation.	https://forms.office.com/Pages/ResponsePage.aspx?id=pM_2PxXn20i44Qhnufn7o959XcpXIENet7KNg5LjcatUODICNTVXQ0R2NklzNTBFNjIMRzk1VEQ1MS4u	26-Jun-23
Ongoing Program	Exploring consumers' and nurses' experiences of the Mental State Examination (MSE)	Did a Registered Nurse ask you some questions about your thoughts and feelings and other experiences related to your mental health? If so, the research team would like to invite you to participate in our research study. This study aims to explore participants' and nurses' experiences of the MSE in acute in-patient mental health settings to improve therapeutic relationships between nurses and people using mental health services.	https://cdn-au.mail.snd.com/47157/-HkuemQR0_vSA_WNJ7Jdc5PCIUH0JdM4ycAOv7dVrqY/1686717779/2865172.pdf	26-Jun-23
Ongoing Program	Introduction to Consumer Involvement in Health Research	Introduction to Consumer Involvement in Health Research is a free online training course, provided by Health Consumers NSW for Sydney Health Partners. It provides a basic understanding of the why, what and how of consumer involvement in health research including: the rationale for consumer involvement in health research; and different ways that health consumers can be involved in health research. The training module takes about 90 minutes to complete and can be undertaken at a time that suits you.	https://www.hcnsw.org.au/training-events/cci101/	18-Sep-23
